

KITTEN

Kittens up to 1 year old

Available in
400g - 2kg - 4kg - 10kg

DIGESTIVE HEALTH

During the growth period, the kitten's digestive system remains immature and continues developing gradually over several weeks. An exclusive combination of nutrients helps support the young kitten's digestive health and contribute to good stool quality. Highly digestible proteins (L.I.P*), an adapted fibre content including psyllium and prebiotics promote a balance in the intestinal flora.

NATURAL DEFENCES

The complex of antioxidants and prebiotics contained in the KITTEN formula help support the kitten's natural defences.

HEALTHY GROWTH

The balanced content of highly digestible proteins (L.I.P*), vitamins and minerals of the KITTEN formula helps support growth. It also meets the energy needs related to this intense growth period.

*Please note: Kibble not shown to scale.
